

Facundo Ezequiel Leis Pou

Sales Development & CRM Specialist

Florianópolis, Santa Catarina, Brazil · +55 (48) 9 9219-1902 · facundoezequieleis@gmail.com · [LinkedIn](#)

Summary

Bilingual sales and CRM professional with 15+ years across US, Latin American, and Brazilian markets. Experienced in lead pipeline management, marketing automation, CRM architecture, and data-driven outreach. Currently coordinates CRM and automation at a law firm (VKM Law Group) and builds AI-assisted workflows at Dell Digital. Strong technical fluency enables custom integrations, reporting, and tooling beyond standard CRM playbooks. English near-native (ECCE Grade A); Spanish native; Portuguese fluent. Combines SDR discipline with hands-on automation skills to improve conversion, follow-up, and pipeline visibility.

Skills

Sales & CRM: Lead generation, pipeline management, CRM administration, marketing automation sequences, lead tracking, client intake workflows

Outreach & communication: Bilingual client communication (EN/ES/PT), email sequences, follow-up cadences, technical support background for consultative selling

Data & reporting: MS Excel (advanced), campaign performance analysis, compensation data analysis, SERP/SEO evaluation

Automation & AI: Make, n8n, MindStudio, LLM integrations (Claude API), workflow automation, custom CRM tooling

Technical fluency: API integrations, TypeScript/Python scripting, SQL reporting, WordPress and low-code platforms

Spoken languages: English (near-native; ECCE — CaMLA, Grade A), Spanish (native), Portuguese (fluent)

Experience

CRM & Automation Coordinator

VKM Law Group · Florianópolis, SC, Brazil

May 2025 – Present

- Own the full CRM lifecycle: pipeline stages, automation rules, lead routing, and data integrity for client intake.
- Design and maintain marketing automation sequences that nurture leads from first contact through conversion.
- Build reporting dashboards and internal tools for campaign performance and intake tracking.
- Analyze marketing data to refine targeting, messaging, and follow-up timing.

AI Automation Specialist

Dell Digital · Remote

Jul 2021 – Present

- Automate document handling, data extraction, and reporting workflows using LLM integrations (Claude API).
- Partner with cross-functional teams to scope automation that reduces manual sales-ops and support overhead.
- Identify process bottlenecks and deliver scripted solutions in Python and TypeScript.

Freelance Full Stack Developer

Self-Employed · Florianópolis, SC, Brazil

Jan 2024 – Present

- Deliver CRM integrations and automation for small business clients — bridging sales needs with technical implementation.
- Build custom data pipelines and third-party API integrations to streamline lead capture and follow-up.

Technical Support Representative

Teleperformance · Buenos Aires, Argentina

Jan 2008 – Nov 2009

- Delivered bilingual (English/Spanish) customer support for US clients — strong consultative communication and objection handling.
- Managed multiple client accounts simultaneously with high adaptability across product lines.

HR Data Analyst

Hay Group · Buenos Aires, Argentina

Mar 2011 – Oct 2011

- Analyzed compensation datasets for NA and LATAM markets; built structured reports for stakeholder decisions.

Internet Assessor (SERP / SEO Analyst)

Lionbridge · Remote

Jun 2012 – Nov 2012

- Evaluated search results quality and relevance — analytical mindset applied to digital marketing outcomes.

Education

Fullstack Developer — Information Technology (formal technical program)

SENAI/SC – Serviço Nacional de Aprendizagem Industrial · Jan 2023 – Dec 2023

Certifications

The Fullstack Developer credential is a formal technical certification from SENAI/SC; remaining items are from online learning platforms unless noted.
